CITY—MAY 1940.

### A RISE OF ONE POINT

The cost of living index remains for the working classes in the Madras City rising up to 127 for May 1949 and is higher by 4 point than the index for the previous month.

As compared with the previous month, the index number for the food group rose by two points to 100 owing mainly to an increase in the price of rice.

The value multiplier for the fuel and lighting group fell by three points to 110 due to a decrease in the prices of kerosene and diesel.

The index numbers for the drilling, housing and miscellaneous groups remained unchanged at 107, 100 and 100, respectively.
